In Franklin potatoes sell at 50 to 75 cents per peck; green apples, \$1 per peck; cucumbers, \$1 per dozen; tomatoes, 50 cents per dozen; cabbage 15 to 25 cents per head, and other things in proportion.

Rents are extravagantly high, notwithstanding the large number of buildings
that have been recently erected. An ordinary dwelling house of six rooms brings six hundred dollars a year rent. Store rooms, twenty by forty feet, rent for \$1,000 to \$2,500, according to locality. But not-withstanding these high rates, everything is occupied, and there are constant inquiries for dwellings and store rooms.

Something about N. E. Sheldon, Our readers will remember the accounts we have given of one N. E. Sheldon, causing the street of Mr. Frederick A. Howe, of Meadville, on charge of swindling him, the said Sheldon, by selling bogus oil lands. Everybody in this section knew that Mr. Howe was a reliable man and at once dis-credited the charge, but few if any could tell who or what N. E. Sheldon. In look-ing over our books yesterday we discovered that this Mr. Sheldon was some time ago a news dealer in Titusville. He kept a sort of news depot there, and patronized the Dispatch very liberally, no doubt on account of its being, par excellence, the best article in his line. But he suddenly stopped buriness one day, and has owed us thirty six dollars over since for papers re-ceived. A man who swindles a newspaper is mean enough and brazen enough to have Mr. Howe arrested on charge of sell-ing bogus oil lands. We have found out who N. E. Sheldon is, or rather we have found that Mr. Howe's Sheldon and our Shaldon are identical. So soon as Mr. N. E. Shaldon secures the said thousands of dollars which he charges Mr. A. with hav-

gone putrefaction is being applied with great success. The body is placed in a water-tight shell; twenty pounds of common salt and one pound of hydro chloric acid are added to the water, and the immersion is sustained three hours. The body is then removed, the face is washed with simple water and then with chlorine water, and finally a current of chloride gas is passed freely over the face. The restora-tion of the features is thus so perfect that the body can be positively identified.

DRIVATE AFFAIRS, All Classes are Interested.

Farmers Drovers, Merchants, Lumbermen, Mechanics, Miners, Bankers, the rich and the poor, should ask themselves if the slightest Strutture, or so-called Privars Disease, taint is lingering in their Strans, if so, they should suply in person, if possible; if not possible in person, by letter, and receive by return mail a black circular of questions, which will enable any one to know postitively just how they stand.

To the intelligent reader it is not nocessary to publish the names of the many complications and forms assumed by this terrible scourge, yet it may be advisable to mention as most prominent Symins. Primark, Syminus Skoonsark, and Symins. Tentral the latter involving the bones in its deathly action.

Every one should know, also, that many of the most obstinate and worst Ucara-van Traoars proceed from this cause, and will, if not properly nandled, ultimately result in loss of voices. Look to your true interest, and consult by letter, or apply at DR. DRHARTS
